

Brown has a new ad.

Batter is getting more plentiful.

Probate court meets next Monday.

Remember the REGISTER office when you want printing.

Bloomers vs. Ironton next Tuesday. Don't miss the game.

County court is in session this week transacting the usual business.

The ice cream stand in the Arcadia Hotel park is now open for the season.

Ironton and the St. Louis Stars (ladies) play ball next Tuesday afternoon.

Arthur Nall writes that the legislature will probably adjourn the latter part of the week.

The regular service at Fort Hill church next Sunday at 11 A. M. Church conference at 3:30 P. M.

It seems to be the opinion that a battle royal will be made on the Ironton saloon petitions this year.

A. Rieke has purchased the Halter lots just north of his saloon, and will erect a building thereon at once.

Judge Jordan, wife and younger son left Monday night for their new home at Walter, Okla.—*Corning (Ark.) Courier*.

Last Friday we were without the St. Louis daily papers, a strike of the pressmen interfering with issuing of the papers that day.

Godfrey O'Neal was here from Franklany Sunday. Godfrey says that he believes there will be no strike of the miners at present.

It is said that when the telegraphers' eight hour law goes into effect—about June 15th—the night office at Ironton will be closed.

The REGISTER does the best printing at reasonable rates. When you want anything in the printing line give us a call or write us.

Mr. Delano tells us that the enumeration, just completed, shows 338 children of school age in the district. A slight gain over last year.

Mrs. Kinney and daughter, having sold their home in Arcadia to Dr. Summa, will in future reside at their old home at Annapolis.

Prof. Burwell Fox has been appointed a member of the County Board of Education by the State Superintendent of Public Schools.—*Potosi Journal*.

We understand that Contractor Chas. J. Tual has secured the contract for building a \$10,000 residence for Robert A. Lewis on the Langdon place in Russellville.

A burglar attempted to break into A. Rieke's saloon through one of the windows last Friday night, but was frightened away by Jim, the faithful watch dog.

The excursion from St. Louis Sunday was composed of nine coaches. It was a miserable rainy day and the visitors had to spend all of their time indoors.

On some technical grounds an effort was made to get the county court Monday to refuse to grant a saloon license to Geo. Schultz. Mr. Schultz was granted a license for six months.

A revival meeting will be inaugurated at the M. E. church in Ironton to-night. Rev. E. V. Maxey, of Illinois, will be in charge. People of all the churches are invited to attend.

LOST—On Sunday, May 5, 1907, on the road between Ironton and Bellevue, two pair of players in a cigar case, marked "M. E. Wilson, De Soto, Mo." Return same to this office and receive reward.

The past week has afforded just about as cold weather as we ever experience in May. Still it has been nothing like as bad as they've had in the northern part of the State, where there were six inches of snow last Friday.

LOST—On Tuesday, April 30th, somewhere on the street in Ironton, between the court house and the railway station, a gold ring, set with ruby and pearls. Finder will return to this office and receive suitable reward.

The editor is in receipt of a postal card from Miss Alice Gay, mailed in New York, stating that she would sail from New York May 1st. The REGISTER trusts that Miss Gay may have a bon voyage and safe return.

The following additional subscriptions to the cemetery fund are acknowledged:

Mrs. E. V. Peck \$1.00

Mrs. Albertine Gosney 1.00

F. Kath 1.00

Mrs. E. F. May 1.00

Mrs. S. G. Tetwiler entertained the Charleston band Monday night it being Mr. Tetwiler's 45th birthday. Light refreshments were served, and although the night was very stormy the boys report a pleasant time.—*Charleston Enterprise*.

The law passed by the legislature limiting telegraphers to eight hours' work per day, it is thought, will result in the railroad closing up many telegraph offices. It is prophesied that the Ironton and Arcadia offices will be combined.

The Ironton nine and the St. Louis Stars (ladies) play ball next Tuesday afternoon at two o'clock. Admission 25 cents. An effort is going to be made to have the stores close while the game is in progress, so that everybody can turn out.

Geo. P. Foster, who recently purchased the home of Wm. Trauernicht in Middlebrook, was a visitor to Ironton Tuesday. Mr. Foster says that he is well pleased with his new home. It is a little quiet in the Brook, but that is what he was seeking.

Messrs. Whitworth and Gregory this week sold their stock in the Whitener Grocery Company. We understand that Messrs. Tom Harris and Henry Berry bought the stock, they will continue the business. Mr. Goff Whitworth will remain with the firm a month or two.—*Fredericktown Democrat-News*.

The county court Monday named the Bank of Ironton as the county depository for the county funds for the next two years, said bank agreeing to pay four per cent. on daily balances. There were no other bids before the county court. The bid of the Bank of Ironton was 3-8 per cent. less than its bid of two years ago.

A county, to secure any of the benefits of the \$500,000 good roads fund, set aside by the regular session of the legislature, must first set aside from its own revenue a sum equal to the sum for which it asks the State. If a county wants \$5000 of that good roads fund it must appropriate \$5000 of its own revenue to go along with it.

August Rieke says that he has positive information that someone recently attempted to personate him in some real estate transaction in East St. Louis, Ills. Whether his name has been forged he has not yet ascertained. He says that if he can find out the perpetrator of the dirty trick, that he will try and make it hot for him.

U. S. Grant Post, No. 579, will meet at Union Hall, Pilot Knob, on the second Saturday, the 11th day of May, 1907, to make arrangements for Memorial and Decoration services. A full attendance is requested.

By order of the Post.

JOHN ALBERT, P. C.

JOHN S. LUTHY, Adj't.

Up at Bellevue last Sunday week the Cedar Grove and Bellevue base ball teams opened the season with a game that must have been something of a "pitchers' battle." There were only sixty-nine runs made, and Bellevue got fifty-four of them. The *Ozark Banner* says the boys are not pitching in quite their best form yet.—*Lead Bell News*.

To our old friend, Mr. Frank Scoville, of Corona, California, we are indebted for a box of very fine oranges, received last week. "Fine oranges" is not equal to the occasion. They were simply the finest specimen of the fruit that it was ever our good fortune to taste. Large, sweet and in splendid condition, we certainly have enjoyed them immensely.

The section men on the Iron Mountain railroad were recently granted an increase in wages of ten cents per day. Now they are asking for another increase of twenty-five cents per day, and say that unless their request is granted they will go out on a strike May 10th. The pay is now \$1.35 a day. The section bosses are also asking more money.

Congressman M. R. Smith, of Farmington, spent a couple of days in Centerville this week, investigating land titles for the Moss Tie Company. He returned to Farmington Wednesday. We understand that Mr. Smith contemplates starting early in the present month on an extended trip through the western States for the benefit of his health.—*Centerville Outlook*.

Work began Monday on the building for the Bank of Des Arc, of which J. L. Strader, formerly cashier of the Bank of Piedmont, is cashier. In a short time this institution will be installed in its permanent quarters ready to transact business. The fact Mr. Strader is at the helm indicates to us that the success of the new bank will be assured from the start.—*Piedmont Banner*.

The Pittsburgh A. C. defeated the famous St. Louis Stars (ladies' base ball club) at Friendship Park last evening, before the largest crowd that ever witnessed a game of ball in Pittsburgh. It was an interesting game from beginning to end. The ladies played with great credit to their sex. Score, 4 to 3, in favor of Pittsburgh.—*Pittsburgh (Pa.) Dispatch*.

At Ironton, Tuesday, May 14th. The REGISTER this week prints the financial statement of Iron county for the year ending January 31, 1907. For the convenience of the reader it is printed in pamphlet form, and will be found to contain a complete review of the county's receipts and expenditures for the past year. An exhibit is also made of the school fund. It is an interesting and instructive document for the taxpayer.

The Governor has not yet signified what further action he will take in the case of John and Amalek Brooks, sentenced to be hung here May 18th. Mrs. Brennan, mother of the Brooks, has been circulating a petition addressed to the Governor, asking for a commutation to life sentence in the penitentiary. It is understood that nearly every member of the jury that tried the Brooks has signed this petition.

Mrs. Louis Miller, of Arcadia, cleaned out the wash house last Monday and concluded to burn up the trash. The fire did not burn rapidly enough and she stirred it with a stick. Then there was an explosion. Mrs. Miller suffered

quite a shock and the fire was scattered every way. It is thought that in some way or other a small stick of dynamite had gotten into the rubbish. Fortunately, Mrs. Miller's injuries are not serious.

At the meeting of the school board Saturday evening Oliver Graham, of Eldon, Mo., was elected principal for the ensuing year. All the old teachers were employed. After the election Director Geo. Gay stated that he was in favor of higher salaries for the teachers. Director Schwab opposed the idea, saying that it was his belief that there would be no trouble in securing other teachers, just as good as those now employed, for the same money.

The Ellington Press, last week, commented on a report that was published in the *Reformer* of April 18th. The report was to the effect that a child had been found in the creek north of Ellington. We had learned that the report was not true, and we are truly glad that it was not true. It was only reported to us, and published as reported, therefore we do not think we have cast any reflection on the Ellington people, or at least we did not intend to.—*Centerville Reformer*.

A letter from St. Louis advises us that Geo. Hasty, formerly of Arcadia, died in St. Louis on the 22d of April, 1907, aged 27 years and 2 months. He was the victim of that dread disease, consumption, after suffering for several months. He had resided with his aunt, Miss Melvina Copeland, for six years prior to his decease, and his chief regret was that they must separate. His aunt says that though not a church member, he was a firm believer in the Savior, and had determined to unite himself with some Christian congregation had his life been spared.

Said Benny—through his daughter—three weeks ago: "He (Judge Schmidt) has exposed the fraud where in the past ten years the county has paid out some \$5000 or \$6000 for tax books which were never made." Yesterday, in open court, Judge Schmidt denied that he had ever authorized Benny to make such a statement, or had told him any such thing. It is now up to Benny, but he will ignore the exposure of his mendacity and skip from this false charge to another equally vicious and false, as nimble as hops the gay and festive flea from point to point of fancied vantage.

From the *Republic*, telegraphed from Jefferson City: "The people in the rural districts must have been watching the vote of the House on the public utility bill much closer than was supposed in Jefferson City. At least two members of the House were in their seats all the time and supported the measure royally have been reported to their constituents as absent at the very time when their votes were badly needed to adopt the Cross substitute. These members were Messrs. Cook, of Ray, and Polk, of Iron, both of whom appear on the official records as having voted with the friends of the bill that passed on every proposition. The attention the public generally undoubtedly took in the welfare of this measure is taken to mean that members of the legislature are much more closely watched by their constituents, at this time, than any previous period of the present legislature."

A spicy prison paper published by the convicts in the Ohio State penitentiary has been forced to suspend because there is not a single printer among the convicts. There are enough bankers to handle several big financial institutions, plenty of lawyers and doctors, and several preachers but no printers. Elbert Hubbard explains the absence of printers by stating that they are the busiest people on earth, and a busy man has no time to get into meanness. Hubbard is right. The man who spends his time in useful, honest effort is the last man to get into trouble. But there is another reason why printers are scarce in prisons. They handle so little money they never get contaminated with the modern spirit of graft and greed. A printer wants only a clean shirt, a meal ticket and a plug of hilloide navy. Add to this a full copy book and plenty of job work and he will demand a bonus before swapping jobs with Saint Peter.

The rumors of a strike have caused considerable comment throughout this district during the past ten days. The Bonnetter papers were full of it last week, and the *Register* in particular, set forth the situation in a most pathetic and decidedly one sided story, in which it placed all the blame (in the event a strike should occur) on the part of the union men. It is not yet recorded that a strike will occur, but it is a fact that a demand for a twenty-five cent increase has been made. The increase has been flatly refused by the companies involved, and the Doe Run Lead Company this week issued a circular, with which most of our readers are already familiar, setting forth their reasons for the stand they have taken. A special meeting of the district council of the W. F. of M. has been called for next Sunday. The chief topic for discussion will probably be the wage question, and plans will be formulated for handling the situation.—*Elvins Herald*.

For twelve months before they were married she never came down town without seeing him. If she walked one block he always managed to be waiting for her on the corner, smiling like an oyster on the half shell. If she carried a package as weighty as a spool of thread, he took it from her by force, for fear she would strain herself or break a mainspring. He wanted to call on her every night and would have done so if her father had been dead. He just simply existed, and that was all,

when out of her presence. He was so considerate of her feelings he never went near her after taking a drink until he had thoroughly overhauled and deodorized his breath. Twelve months after they married, and he saw her down town, he darted in a screen door to keep her from seeing him. He saw her pass by with a big, heavy bundle, but he never went out and offered to carry the load. Perhaps it was because he was already loaded himself. He usually made it home for supper and then went down town on important business. This is what might be properly called before and after taking.—*Er*.

Last night (Tuesday), when the Sisters of Arcadia returned from May Devotions they saw a column of fire bursting forth from one of the outbuildings. The fire signal was immediately given and the organized Sisters' Fire Brigade, under the direction of the Rev. J. Adrian, responded at once. The neighbors and friends from Arcadia and Ironton also hastened to the scene. Not a man, woman or child but worked efficiently. The Sisters almost fell repaid for their loss by the good will shown by all, and tender their heartfelt gratitude to those who helped them in the time of danger. Where all did so well it is scarcely possible to designate any one in particular, still the credit of great foresight is due to Dr. R. W. Gay. Seeing the fire, and recognizing it to be on the College grounds, he immediately hauled out the Ironton fire engine, attached it to his buggy, and at a furious rate drove to the College, calling for help on the way. He and his assistants did good work with the engine. The building burned was a new two-story frame, the lower floor of which was used as a carpenter shop, machine shop, and carriage house; the upper floor was used as a trunk room principally, also a storage room for paints, etc. The Sisters consider it very providential that they suffered no greater loss. However, the new Bethesda Water System, which they had installed last summer, is a reliable fire service, as was shown last night. The cost of the building is estimated at \$1000. Notwithstanding the loss, the Sisters feel the satisfaction of being able to cope with any danger of fire.

J. N. Stedman, entomologist of the experiment station, Columbia, Mo., issues the following note of warning: "There will be due in Missouri this coming spring the largest brood of the seventeen year locust, or periodical Cicada, known in this State. It will occur over the entire wooded portions of the State except the northwest corner, and they should make their appearance in immense numbers by the latter part of May. The prairie section will be exempt. This brood is one that matures every thirteen years, but it is the same species as those which mature every seventeen years. Those insects occur in immense numbers near timberlands and are liable to do much damage to newly planted orchards by puncturing the limbs to deposit their eggs. One will therefore be running a great risk in setting out an orchard this spring near timber or thickly timbered region. It would be advisable before concluding to set out trees this spring to consult the older inhabitants in your region as regards the occurrence of the locust thirteen years ago in that locality. The eggs which the female Cicadas deposit in the twigs of the orchard, forest and shade trees soon hatch and the young drop to the ground and enter it, remaining there and extracting sap from the roots for either thirteen or seventeen years according to the brood and doing no appreciable damage during this time. Spraying common lime whitewash on the limbs of young trees tends to keep the Cicadas from depositing their eggs there, but it is difficult to reach the limbs and cover them at that season because the leaves catch and hold the spray. The spraying should be done, if at all, just before or just as soon as the egg-laying process begins."

Johnnie Maddock Killed.

Our little town, Des Arc, Mo., was again shocked, and many hearts saddened, by the news, on last Wednesday, of the death of Johnnie Maddock, 22 years of age, who was killed at Irondale. He had been working on the road as brakeman only a short time and was running on a through freight. They were running at a high speed through Irondale and he was on top of the caboose, just ready to enter the cupola, when he was struck by the iron spout of the water tank, which had been left down, and thrown ninety feet, killing him instantly. He was the son of Mrs. M. E. Maddock of this place, and a brother of Ed. Maddock, who is well known on the Iron Mountain, having been a railroad man for a number of years. The beautiful floral designs sent by his friends showed the high esteem and love in which he was held. Among them was a beautiful wreath from his young associates; also an anchor, sent by his crew. The Woodmen conducted the funeral service, which was very impressive. Among the relatives and friends who attended from a distance were: Mr. and Mrs. Erlocker, and Mr. and Mrs. Walton from Mineral Point, Miss Agnes Dumas from St. Louis, Miss Flavia Polk from Arcadia, Mr. and Mrs. Joe Walton, and Miss Agnes Maddock, Mr. Reed, his conductor, and a number of brakemen from De Soto. The entire community joins us in sympathy to the bereaved family.
